## UI/UX DESIGNER

[VERENAVERTONGHEN.GITHUB.IO](https://verenavertonghen.github.io)

### ABOUT ME

I am a UI/UX Designer with 8 years of industry experience. During the early stages of my career, I took on additional responsibilities in frontend development to bring my designs to life. Later on I began to focus solely on design. In addition to UI/UX design, I possess a solid background in Design Systems. Above all, I derive great satisfaction from crafting products that resonate with users and enhance their experiences.

### EXPERIENCE

#### **Senior UI/UX Designer**

GreenStack

Aug 2022 - Present - 1 year, 8 months

Responsible for everything related to design for GreenStack, PayTalent and SimplyAsbest: website, logo and branding as well as an internal timesheet application for GreenStack consultants.

#### **Senior UI/UX Designer**

Eurocontrol (Consultancy for GreenStack)

Mar 2023 - Jun 2023 - 4 months

Responsible for the design of the Workflow management track. Delivered wireframes, mockups and 9 clickable prototypes based on the provided scenarios and using the Eurocontrol design system.

#### **Frontend Developer - UI/UX Designer - Design Systems Lead**

Delen Private Bank

Oct 2017 - Aug 2022 - 4 years 11 months

Design and development for the Delen mobile app and internal applications. Owner of the Delen Design System (in Sketch, later Figma) which resulted from the innovation track that I kickstarted. Lead organizer of the first Delen Hackathon in 2019.

### OTHER EXPERIENCE

#### **Frontend Developer / UI/UX Designer - Noticed**

Oct 2016 - Oct 2017 - 1 year

#### **Frontend Developer / UI/UX Designer - VDAB (for Optis/Cronos)**

Sep 2015 - Sep 2016 - 1 year
